## LTS Conference 2000 “Scoop on Scopes” September 15, 16 & 17

### *Testimonials from attendees:*

“First class all the way! Two thumbs-up for all the LTS crew!”  
John Tisdale, ASE

“I sure had a great weekend. Lots of learning and fun and met some great people. It sure was well prepared and organized. Thanks to the whole Lindertech crew and the sponsors and vendors and presenters also.”  
Jim Van Der Laar, Fremont, OH

“Kudos to Linder and the LTS crew for another fine conference! Quality topics and presentations, hospitality and accommodations, not to mention the interaction with fellow industry and iATN members.”  
George Generke, Aurora, Illinois

“Jim Linder and crew are to be commended for a fantastic job this past weekend. What a smooth running show. Thanks to all the vendors who came to display their wares and a special thanks to all the speakers who spent their time and energy putting together those awesome presentations. Was the conference worth it? Will I be back next year? Bet on it!” Lance Mossman, Flint, MI

“Attending a weekend of training is always a dilemma for me and many others, I think. Committing a block of time is difficult, as you know. However, once again, my time was well invested. As is usually the case, the ones who need it most aren't here! Thank you Jim and all your staff.”  
Carl Strohm, Indianapolis, IN

“It's difficult to imagine what goes into putting on a conference of this size. The LTS crew really needs a standing ovation in making this happen. Jim, from the bottom of my heart, Thank You! Your dedication to the conference and everyone there was unbelievable. Selfish is obviously a word that has never passed your lips, and as a direct result of that, you made it possible for me to attend.”  
Brad Petersen, Escondido, CA

“.....I'll be back next year, bringing others. Thanks!” Chris Linam, Fort Smith, AR

## ***Our Future's So Bright...***

"Scoop On Scopes" offered the latest scope units available today, taught by the leading edge automotive technicians and instructors from across the country!

Trigger set up, advanced utilization tips to include ignition systems, current ramping techniques and the newest units on the market.

Conference included a trade show in the classroom area with vendors. There was entertainment on Saturday evening, and all meals for Saturday and breakfast on Sunday included.

### ***Agenda***

#### **FRIDAY**

**September 15th, 2000**

- The conference started at registration with the LTS "blues crew".
- A tour was taken of the LTS facility on Friday evening. Loaded up two 15-passenger vans, with others following along in their cars.

#### **SATURDAY**

**September 16th, 2000**

- Ignition Features & Failures by the "shocking" Mac VandenBrink.
- O2 Sensor Frequency Analysis by John Thornton.
- Creative Lab Scope Techniques by Tom Roberts.
- Silver Bullets by John Forro.
- DSO Interpretation by Randy Bernklau & Paul Johnson.
- Comedian, Dave Dugan, as "Danny Dae" of Daewoo International provided Saturday night's entertainment.

#### **SUNDAY**

**September 17th, 2000**

- What Labor Rate??? by Van Kirk.
- Edwin Jones from Underhood Service magazine.
